| Vision                           | To promote an integrated developed community.  |
| Mission                          | To improve the Socio-economic conditions of the vulnerable communities.  |
| Objectives of the Project        | <p><b>a. Overall objective (project goal)</b></p> <p>The overall objective of this project is to put in place and run a modern primary school, which will offer high standards of education and instill discipline/morals among the learners. The long-term goal for Mwino Foundation is build a model education centre for children in Kamuli district.</p> <p><b>b. Specific objectives (project purpose)</b></p> <ol style="list-style-type: none"> <li>1. To build a modern school from nursery up to primary seven.</li> <li>2. To build an accommodation block for the teachers as part of the school campus.</li> <li>3. To build other facilities e.g. administration block, toilet block, septic tanks, Art and Craft block, football and netball pitches and other facilities for games.</li> <li>4. To provide clean water, electricity, telephone and other accessories for communication, information, entertainment and education.</li> <li>5. To purchase or acquire vehicles and any other means of transport to facilitate the work of the school.</li> </ol> |
| Target Group(s)                  | The direct beneficiaries of this program are the children from 3 - 15 years of age within Mbulamuti community, Kamuli District and the neighboring districts.  |
| Estimated Results of the Project | <p>Result 1: Reduction in illiteracy, ignorance and poverty of children.</p> <p>Result 2: Increased employment opportunities among the youth due to acquisition of appropriate skills.</p>   |

|                                |  |
|--------------------------------|--|
|                                | <p>Result 3: Improved awareness about people's rights, especially the right to education and the right to a decent and respectable life.</p> <p>Result 4: More children in Mbulamuti and Kamuli District will receive quality education .This will result in a reduction in illiteracy, ignorance and poverty due to improved levels of education among children.</p>  |
| Main Activities of the Project | <p><b>Activity 1:</b> Construct &amp; equip the Mwino Nursery and Primary School.</p> <p><b>Activity 2:</b> Register Mwino Nursery and Primary School with the Ministry of Education and Sports.</p> <p><b>Activity 3:</b> Identify and recruit children to join Mwino Nursery and Primary School.</p> <p><b>Activity 4:</b> Identify and recruit Mwino Nursery and Primary School Staff.</p> <p><b>Activity 5:</b> Open and run Mwino Nursery and Primary School.</p> |

## 1.0 INTRODUCTION

The objective of this project is to construct a modern school in a rural setting where there are limited services for education.

The school shall be called Mwino Foundation Nursery and Primary School. It will offer education to the poor, disadvantaged village community where the Government of Uganda, through the Ministry of Education, has been unable to successfully establish schools.

This school project is the initiative of **Rev. Fr. Dr. Joseph Baligeya Isanga**, the executive director. Through his efforts, a plot of land measuring about 10 acres was procured way back in 2006 that will host the structures of Mwino Foundation Nursery and Primary School.

## **1.1. Purpose of Mwino Foundation Child Education Support Activities**

### **1.1.1 Purpose of the organization's establishment**

Mwino Foundation Child Sponsorship Program was formed because there was a great need in the community. This program was initiated to support the rural children of Uganda who are orphaned / disadvantaged and are living in abject poverty. Such children do not have access to education, healthcare and sufficient food.

Through finding sponsors for these children, Mwino Foundation Child Sponsorship Program hopes not only to provide them with basic needs, but also to help these children raise their self-esteem and become self-reliant.

Sponsorship can be a truly life-changing experience for a child. For many of them it can be the only chance to receive education and break the cycle of poverty.

### **1.1.2. Facts about Mwino Foundation Child Sponsorship Program**

- ⇒ Mwino Foundation was founded and legally registered in 2015. Among other objectives, it is aimed at improving the lives of rural children in Uganda.
- ⇒ It is in response to the community-driven needs.
- ⇒ Mwino Foundation Child Sponsorship Program aims at working with orphans and needy children by supporting them to receive education, nutrition and healthcare required to overcome the threats of poverty and orphan hood.

## **2.0 PROBLEM STATEMENT**

The people of Mbulamuti and the neighbouring villages have no proper schools for their children to study. The nearby school in the village is a small temporary structure with no doors, shutters, plastered walls, benches, chairs and insufficient tables for the teachers. The community, therefore, desires a modern school with up-to-date facilities.

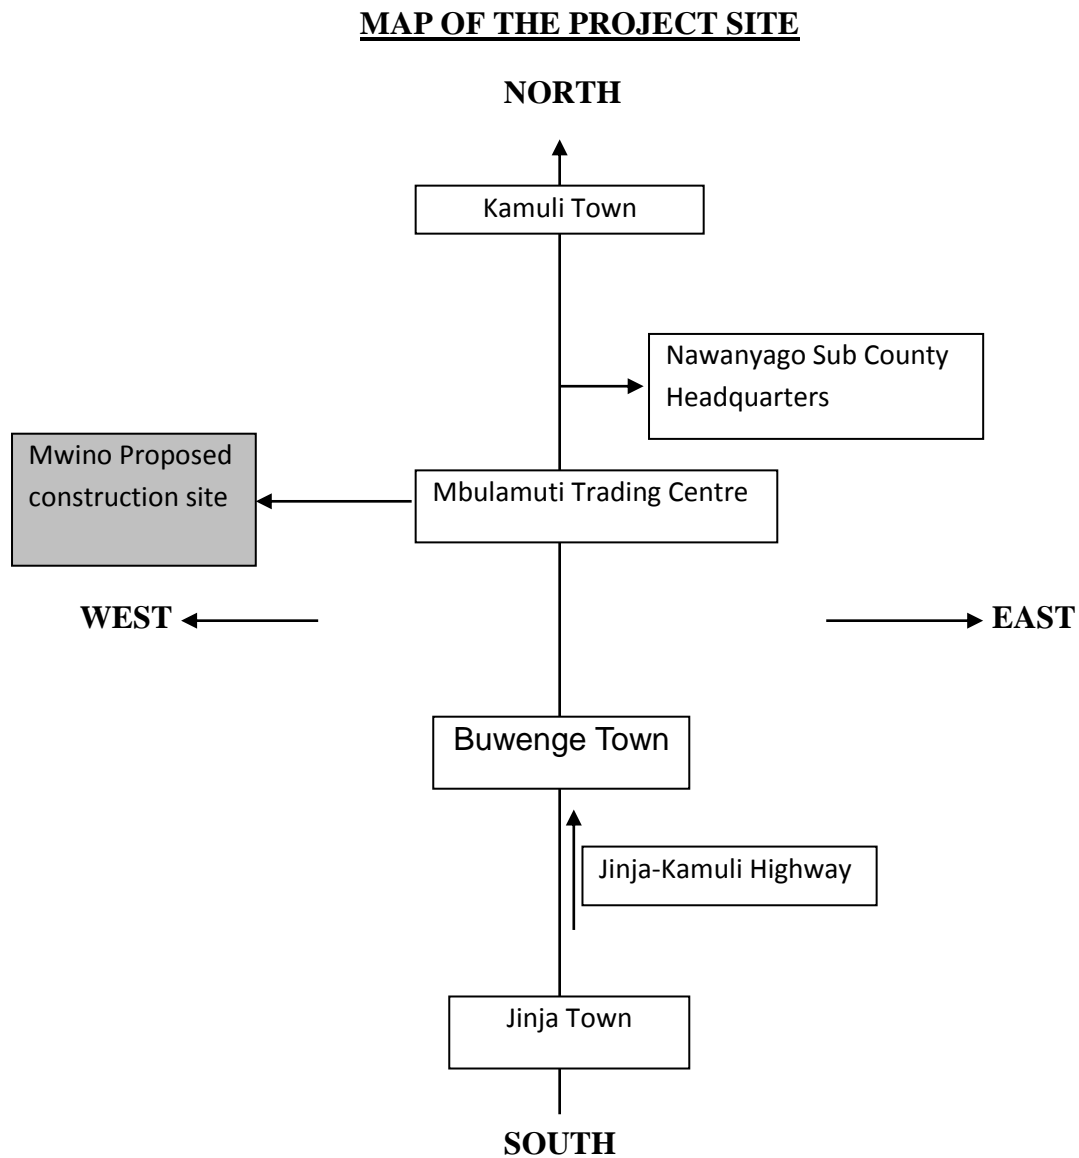

This situation calls for the construction of a modern nursery and primary school to answer the educational needs of the community.

## **3.0 LOCATION OF THE PROJECT**

### **3.1 Project Site**

Mwino Foundation Nursery and Primary School shall be located in the rural village of Mbulamuti in Kamuli District in Eastern Uganda situated north of Buzaaya County, about 25 kilometres from Nawanyago trading centre found along Jinja-Kamuli highway.

### 3.1.1 Map of the Project Site

## 4.0. RESOURCES

The resources required to make the school project a success include the following:

- Building Materials
- Casual labour (locally available in Mbulamuti)
- Expertise (provided by building technocrats)
- Land (already procured)
- Transport

**5.0. BUDGET** (Refer to the attached bills of quantities for details).

## **6.0. FUNDRAISING**

This project does not have specific funders. We hope to receive financial support from friends and well-wishers of the school. Once the funds are available, the construction work will kick off immediately and overseen by the contractor employed by Mwino Foundation. The construction work will be supervised by the Mwino Foundation Administration to ensure that it is done properly and according to the plan, budget and timeframe. Reports will be given to the donor (s) on every phase of the construction work. The accountant will make financial records of all the expenses made to ensure that the whole plan is implemented according to the budget. Review of the budget will be done to avoid any creation of gaps on the budget items.

### **6.1 Implementation Plan**

From reception of the grant:

**Step 1:** Purchase materials and dig the foundation

**Step 2:** Build walls up to roofing stage

**Step 3:** Roofing of the school building and ceiling

**Step 4:** Plastering the building block and finishing the floor

**Step 5:** Finishing (putting in fixtures): installation of safe water and electrical system, installation of furniture and equipment and painting and handing over of the building to Mwino Foundation.

## **7.0. MANAGEMENT**

The Trustees of Mwino Foundation will ensure the proper welfare of the school and its staff. They will collaborate with the Ministry of Education, the donors, other Non-governmental Organizations and the local community for the good of the school.

## **8.0. CONCLUSION**

This project will be built in phases depending on the availability of the funds from the sources of funding. It is expected and estimated that the school will take 1-2 years to be completed. After the primary school is completed and the school activities run smoothly, plans may be made for a vocational training centre. The project implementation plan may change as deemed necessary and the budget revised accordingly.

Proposal and Feasibility Study done and compiled by:

***Rev. Fr. Dr. Joseph Baligeya Isanga***  
***Executive Director and Founder***  
***Mwino Foundation Limited***
